Land Tenure Adjustments

- Lands Identified for Acquisition
- Lands Identified for Disposal

In Section 102 of FLPMA Congress declared: "it is the policy of the United States that the public lands be retained in Federal ownership, unless as a result of the land use planning...it is determined that disposal of a particular parcel will serve the national interest" (43 U.S.C. 1701 (a)(1)). While not specifically mapped as retention areas, public lands are managed according to this Congressional direction, as well as disposal authorities in FLPMA Sections 203 and 206 and other non-FLPMA legal disposal authorities. Land tenure adjustments in PHMA/GHMA would also be consistent with the land use plan direction.
